

SUBJECT INDEX

- Absolute advantage and competitive advantage, 212-4
Acanthamoeba spp., glucosidase and protease from, 250
Agricultural lands, conversion to residential lands, 248-9
Agroforestry schemes in Leyte, 228
Agrotechnology Suitability Evaluation Systems (ASES), 243-4
Antisera against abaca/banana viruses, 234
Antituberculars from Philippine plants, 258
Awards, best poster
 Agricultural Sciences, 231-2
 Biological Sciences, 256
 Health Sciences, 258
 Mathematical, Physical, and Engineering Sciences, 266-7
 Social Sciences, 275-6
- Baby corn production in small farms, 238
Bacillus thuringiensis, effects on rice stem borers, 232
Bacteria, poly- β -hydroxybutyrate producing, 256
Bacterial leaf blight population in Luzon 230-1
Baguio mineral district, geophysical perspective, 268
Bamboos, propagating technique, 237
Biocane-organic fertilizer, 247
Biosensor for neutral lipids, 266-7
Bivalves, edible, of Bicol waters, 256-7
Blood cockle, growth in Bicol waters, 256-7
Bohol ophiolite complex, southeast, 191-206
Botanical extracts, efficacy against mosquitoes, 261
- Cabinet member as public servant, 33-5
Camarines Norte ophiolite complex, characterization, 273
Cancer, lung and breast, assay, 261-2
Cancer patients, hospitalized, psychosocial needs, 262-3
Cassava flour in bakery products, 242
Chemiluminescence of immobilized peroxyoxalate, 268-9
Chromite deposits of the Dinagat ophiolite complex, 267
Chromite genesis, 267
Citric acid production, 244
Competition between *Cymbopogon* and *Imperata*, 226
Competitive and comparative advantages, distinction, 207-8
Competitiveness, a new paradigm?, 207-24
Competitiveness, assessment, 221-3
Copra, tapahan dried, moisture adsorption isotherms of, 233
Corruption, a western concept, 15-6
Cotton, integrated pest management, 246
Cotton, plant parts, physiological parameters of growth, 247-8
Crop suitability evaluation, 243-4
Cymbopogon, competition with *Imperata*, 226
- Dairy cattle production, 227
Dairy cows, performance evaluation, 239
Damage culture, 42-5
Diamondback moth in crucifers, management, 240-1
Diarrhea, bloody, among Filipino children, 259-60

- Dike swarms, 197
Dinagat ophiolite complex, chromite deposits, 267
Diuretioc studies of leaves of *Pandanus* species, 260
- Earthworm, indicator of toxicity level of polluted soils, 252-3
Ethics and corruption up to the 1970s, 12-5
Ethics in politics, review of literature, 9-32
Ethics in politics, two views, 10-1
Ethics of public service in reality, 40-2
Ethics of public service, official content, 37-45
- Family planning in the Philippines, risks and needs, 275-6
Farming systems and landscape sustainability analysis, 243
Filipinos in need of government assistance abroad, 55
Fishes from Taal lake, metazoan parasites of, 254
Flor Contemplacion tragedy, 67, 69
Forearc mantle-crust sequence, geology of, 191-206
Forearc to backarc supra-subduction zone ophiolite complex, 274
- Gabbros, layered to massive, 197
Gambusia affinis, histoarchitecture of intestines, 251
Gene transfer in maize, 231-2
Geologic map of southeast Bohol, 193
Geologic mapping in southeast Bohol, 191-206
Glucosidase from *Acanthamoeba*, 250
Government agencies, rating, 51
Government institutions, rating, 52
- Harzburgites, residual, in Bohol, 192, 194
Human gonadotropin subunits, distribution, profile, 261-2
Humic substances, metal complexing capacity, 270
Hydrogen peroxide, optical sensor for, 268-9
- Imaging of phase objects, 175-84
Imperata, competition with *Cymbopogon*, 226
Infant industries, redux, 217-221
 External economics, 218
 New view of technology, 219-21
 Rent shifting, 218-9
Ionizing radiation, chemical protection, 251
- Keynote address, 3-8
- Lagrangian quasigroups and groups, finite, 266
Lahar activity on the west side of Mount Pinatubo, 272
Legume seeds, identification, 225
Liquid-crystallinity of side-chain polymers, 265
Lithological units of the southeast Bohol ophiolite complex, 194-7
Liver abscess in children, 259
- Macapuno palms, agronomic characteristics, 241
Malathion, effect on hepatopancreas of snails, 254-5
Marine radioactivity, assessment, 253
Melanoidins, flocculation by inorganic cations, 271-2

- Metabolism of calcium and phosphorus in sheep, 229
- Metal complexes, immobilization, 269
- Metal complexing capacity of humic substances,
- Microscope, semiconductor laser confocal,
- Modern-day dilemmas, 4-8
- Mosquitoes, medically important, botanical extracts against, 261
- Mosquitofish, histoarchitecture of intestines, 251
- Mount Pinatubo, lahar activity on the west side, 272
- Moving back from value-neutrality, 16-20

- Neutral lipids, biosensor for chemical analysis of, 266-7

- Official and his function, 67, 69
- Official and his institution, 62-8
- Operators of higher order, power in structural complexity, 265-6
- Ophiolite complex
 - Bohol, southeast, 191-206, 274
 - Camarines Norte, 273
 - Dinagat, 267
 - Zambales, Acoje block, 270-1
- Optical sensor for hydrogen peroxide, 268-9
- Optical thickness measurements, 183
- Optical thickness, set-up for measuring, 176-8, 179

- Pandanus* genus, chemistry and biological potential, 264
- Parasites of fishes from Taal lake, 254
- Performance rating
 - National administration, 53, 54
 - President Corazon C. Aquino, 58, 60
 - President Ferdinand E. Marcos, 57, 60
 - President Fidel V. Ramos, 59, 60
 - President George Bush, 61
 - Prime Minister Thatcher, 63
- Pest management for cotton, 246
- Pesticidal activity of physic nut, 245-6
- Phase objects, imaging, 175-89
- PIIB-producing bacteria, 256
- Physic nut, pesticidal activity, 245-6
- Pink bollworm, biology, 228-9
- Plant regeneration in rice, 239-40
- Platyserium*, in vitro culture, 227-8
- Political and administration ethical values, 22-6
- Politics and ethics, 3-4
- Pomacea canaliculata* exposed to malathion, 254-5
- Potato, white, conservation strategies, 241-2
- Presidential performance, international comparisons, 56-7
- Protease from *Acanthamoeba*, 250
- Proto-southeast Bohol trench, evidence, 200
- Pseudomonas solanacearum*, genomic library and cloning, 245
- Psychosocial needs of hospitalized cancer patients, 262-3
- Pteridophytes in three forests in Mindanao, 133-45
 - Diversity, 135, 136
 - Ecology, 135, 138-9, 140-3
 - Recommendations, 144
 - Status, 134-5, 138

- Public official's performance, surveying satisfaction, 48-55
- Public opinion about public officials, 47-70
- Public opinion surveys, role in a democracy, 47-8
- Pyrolysis rate of agricultural and forest wastes, 236

- Radioactivity in specific marine areas, 253
- Radioprotectors, microcolorimetric assay, 251
- Rating of public officials, questionnaire, 49
- Ratings of government officials other than the president, 62
- Republic Act No. 6713, 38
- Reproductive health risks in family planning, 275-6
- Rice hull, an energy source, 234-5
- Rice root knot nematode, effects of water regimen on reproduction, 235
- Rices, response to tungro, 232-3
- Role models in politics and the bureaucracy, 26-8

- Satisfaction with the
 - Senate President, 65
 - Speaker of the House of Representatives, 66
 - Vice-President, 64
- Selecting and targeting in productivity, 215-7
- Sheep, metabolism of calcium and phosphorus in, 229
- Side-chain polymers, liquid crystallinity, 265
- Silica surfaces, silane-modified, for complexing metals, 269
- Soils, polluted, toxicity level, 252-3
- Spider systematics and diversity, 91-131
 - Anatomy, external, 92-100
 - Checklist of taxa, 115-30
 - Classification, 106, 109-11
 - Collection sites, 102, 103-5
 - Key to identification of families, 111-4
 - Life history, 100-1
 - Measurements, 107-8
 - Photographing and preparation for illustrations, 106
 - Preservation of specimens, 102
 - Rearing methods, 108-9
 - Sampling techniques, 102
- Structural complexity theory, 265-6
- Studies of ethics and corruption at the political level, 21-2
- Sulfur saturation and sulfide mineralization in Zambales, 270-1
- Surveys of public opinion, role in a democracy, 47-8
- Surveying satisfaction with a public official's performance, 48-55

- Tomato cell wall changes contributing to the resistance mechanism
 - Cell coherence, 164, 167
 - Levels of extensin, 152-3, 156, 158, 159, 160
 - Levels of lignin, 153, 155, 156, 158, 159, 160
 - Levels of polygalacturonase, 164, 168
 - Levels of proanthocyanidins, 154, 156, 157
 - Peroxidase activity, 156, 158, 159, 160
 - Resistance to chemical extraction, 161-4, 165
 - Resistance to enzymatic digestion, 164, 168-9, 170, 171-2
- Tomato resistance against bacterial wilt, 147-73
- Trade balance and comparative advantage, 208-12

- Universities, instilling ethics in public service
 - Mindanao State University, 77-81
 - Philippine Christian University, 82-4
 - Role of universities, 71-3
 - University of the Philippines, 74-6
 - What universities have done, 83-90
- Upland crop production in lowland rice areas, 237-8
- Urinary human chorionic gonadotropin subunits, distribution, 261-2
- Urothelial cells for tissue graft, cultivation of, 263

- Vigna radiata* Wilczek, response to γ -radiation, 252

- Weberian bureaucracy, beyond, 39-40
- Welcome address, 1
- Western social science and public administration, 11-2
- White muscardine, pathogenicity against *Passiflora* feeder, 230
- White potato, conservation strategies, 241-2

- Zambales ophiolite complex, Acoje block, 270-1
