National Spatial Strategy

Sets the direction of future growth recognizing population, geography and the role of cities as *engines of economic growth*, ***with infrastructure providing efficient connective networks of sustainable urban and rural communities***, consistent with the country's long-term vision

National Spatial Strategy

1. Build on the efficiencies and maximize the benefits of scale and agglomeration economies

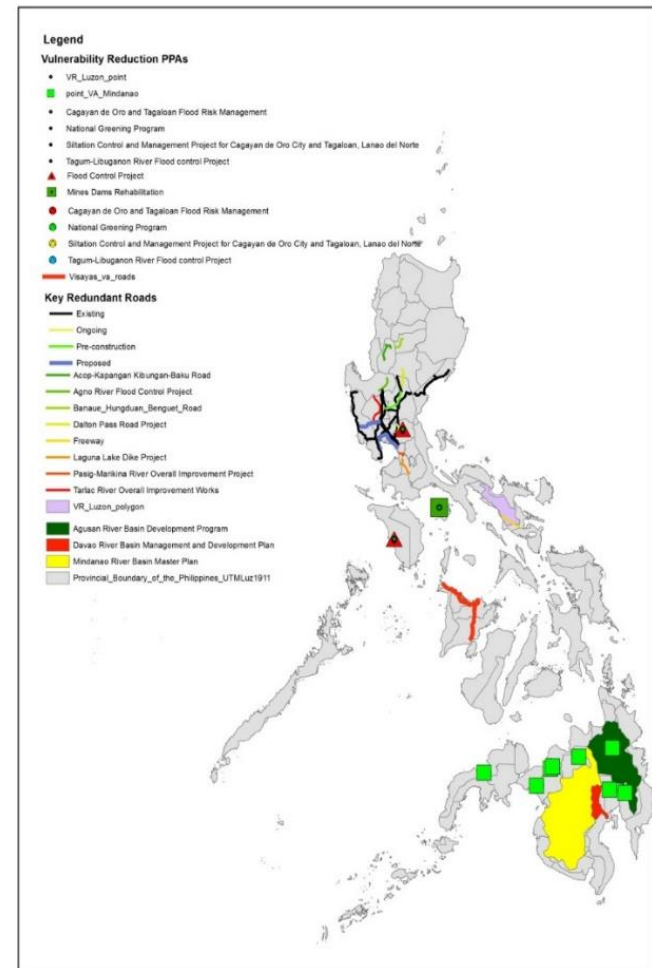

- ✓ Decongest Metro Manila
- ✓ Develop regional and sub-regional centers
- ✓ Manage the growth of large and more environmentally-constrained metropolitan centers

2. Connect the settlements to form an efficient network

- ✓ Improve linkages among settlements and key production areas by connecting rural areas to growth centers

3. Make vulnerability reduction an integral part of development

- ✓ Reduce the risks of communities exposed to the threats of disasters

National Urban Development and Housing Framework (NUDHF) 2017-2022
