

THE CHALLENGE

We are next to the bottom among the 10 ASEAN countries in the Network Readiness Index, a composite measure (10 parameters) of how a country uses ICT, and

We are also ranked very low in the Global Competitive Index (12 parameters) and it looks like we will be stuck in this rank unless we do something about our key infrastructures!

NAST FORUM TOPIC

- **The CHALLENGE**
 - **NETWORK READINESS**
 - **How the Country uses ICT**
 - Country Development
 - Operational Efficiency
 - Security
 - **Global Competitiveness Index**
 - Business Stimulus

NAST FORUM TOPIC

- **Technology**
 - No Monopoly on Technology
 - What is available to one is available to ALL / Universal
- **Availability**
 - Social Responsibility for Basic Needs
 - ICT as a Utility Service (eg.power, water, transportation) therefore affords law, regulatory, and incentives; immunity to Political Changes
- **Application**
 - Towards Improvement of Life
 - Efficiency and Effectiveness of Data Management
 - Seamless Information across ALL
- **Regulatory**
 - Managed Controls
 - Rewards and Sanctions
- **Human Resource Initiative**
 - Responsible Human Values
 - Society Based Priorities

NAST FORUM TOPIC

- **Target Definition**
 - Minimum Requirement per Period
 - Quality of Service
 - Affordability
 - Coverage
- **Benchmarking**
 - Versus National Requirement
 - Versus Regional Players
